Invited Speaker

Simon Carney is Professor of Otolaryngology-Head & Neck Surgery at Flinders University and Head of the ENT Unit at Flinders Medical Centre. He has an extensive track record of clinical and basic science research in rhinology and has been on faculty at over 60 national and international meetings. He has authored over 100 publications is currently the Editor of the Australian Journal of Otolaryngology. He represents Australia on the ISIAN Board and is the vice-president of the Australasian Rhinologic Society.

Faculty

All six members of the faculty have a wide experience in the management of sinus disease and endoscopic surgical techniques. They are joined by leading physicians involved in the management of upper airways disease. They are all actively involved in teaching and research.

About the Course

The course is aimed at practising Surgeons and Registrars. Advanced areas of surgical management will be covered.

There is a focus on integrated medical and surgical management. Modern concepts of airway disease, inflammatory processes and an evidence based approach will be discussed.

Live surgery is planned on Friday morning. Lectures and discussions will prepare the participants for two afternoon sessions in the dissection laboratory.

Areas to be Covered

- Frontal sinus
- Sphenoid sinus
- Nasal polyposis
- DCR
- Management of orbital complications
- CSF leaks/Encephaloceles
