Rhinotomy Workshop

In conjunction with the Endoscopic Sinus and
Skull Base Surgery Course

Invited Speaker:

A/Prof. Martin Desrosiers

Faculty:

Dr Richard Gallagher

A/Prof. Richard Harvey

A/Prof. Raymond Sacks

Dr Janet Rimmer

Prof. Connie Katerlaris

A/Prof. Debbie Marriott

Dr Julian Adler

Dr Brendan Yee

August 26th, 27th, 2010
St Vincent's Hospital, Sydney

Invited Speaker

Dr Desrosiers is an internationally recognised expert in the field of chronic sinusitis. He specialises in nasal and sinus disorders, with special interests in medical management of difficult to treat sinus disease and endoscopic surgery of the para-nasal sinuses and skull base.

Faculty

All three surgical members of the Faculty have a wide experience in the management of sinus disease and endoscopic surgical techniques. They are joined by leading physicians involved in the management of upper airways disease. They are all actively involved in teaching and research.

About the Course

The course is aimed at respiratory physicians, immunologists, allergists and other specialities who are interested in the diagnosis and management of upper airways disease. There is a focus on integrated medical and surgical management. Modern concepts of airways disease, inflammatory processes and an evidence based approach will be discussed.

There is a 'hands on' rhinoscopy cadaver lab, on Thursday evening, with an instructional session on rigid and flexible endoscopy of the upper airway. Live surgery is planned on Friday morning in conjunction with the broader surgical course. Lectures and discussions will prepare the participants for the two sessions.

Program

Thursday 26th August 2010

- 1045 Registration
Function Room, St Vincent's Clinic
- 1100 Endoscopy, "The Nose and Sinonasal Physiology"
- 1230 Lunch
- Lectures**
- 1330 Welcome
- 1335 Basic sino-nasal anatomy
- 1350 Differentiating chronic sino-nasal complaints
- 1400 Microbiology and antibiotic update in sinus disease
- 1415 Biofilms and CRS
- 1430 Immunotherapy update
- 1450 Topical therapies in CRS
- 1510 CRS / Sinusitis - "The Role of Surgery"
- 1530 The role of the upper airway in sleep disordered breathing: medical and surgical perspectives/indications
- 1550 ESS – structured journey
- 1600 Afternoon tea
- 1630 Microsurgical skills lab: Rhinoscopy cadaver workshop

Friday 27th August 2010

- 0730 Morning coffee and breakfast
- 0800 Live Surgery: Function Room, St Vincent's Clinic
- 1200 Lunch
- 1300 Rhinoscopy program concludes

Registration

Rhinoscopy Workshop

In conjunction with the Endoscopic Sinus and Skull Base Surgery Course

St Vincent's Hospital, Sydney
St Vincent's Private Hospital, Sydney

Participant: \$250.00 (incl. GST)
